

Swaham Pitambar Patra

Task 1:

- If Statement

The screenshot shows a code editor interface with a blue header bar. The header bar contains a back arrow, the text "if_day4", a share icon, and a menu icon. Below the header bar, there is a profile section for "Swaham Patra" with a profile picture, a "py" language tag, and statistics "5 hrs • 2 views". Below the profile section, there are three icons: an up arrow with "0", a comment icon with "0", and a lock icon with the text "PRIVATE". The main area of the editor shows a Python code snippet with line numbers 1, 2, and 3. The code is:

```
1 num = 5
2 if num > 0:
3     print("Positive number")
```

 At the bottom of the editor, there is a section labeled "OUTPUT" which displays the text "Positive number".

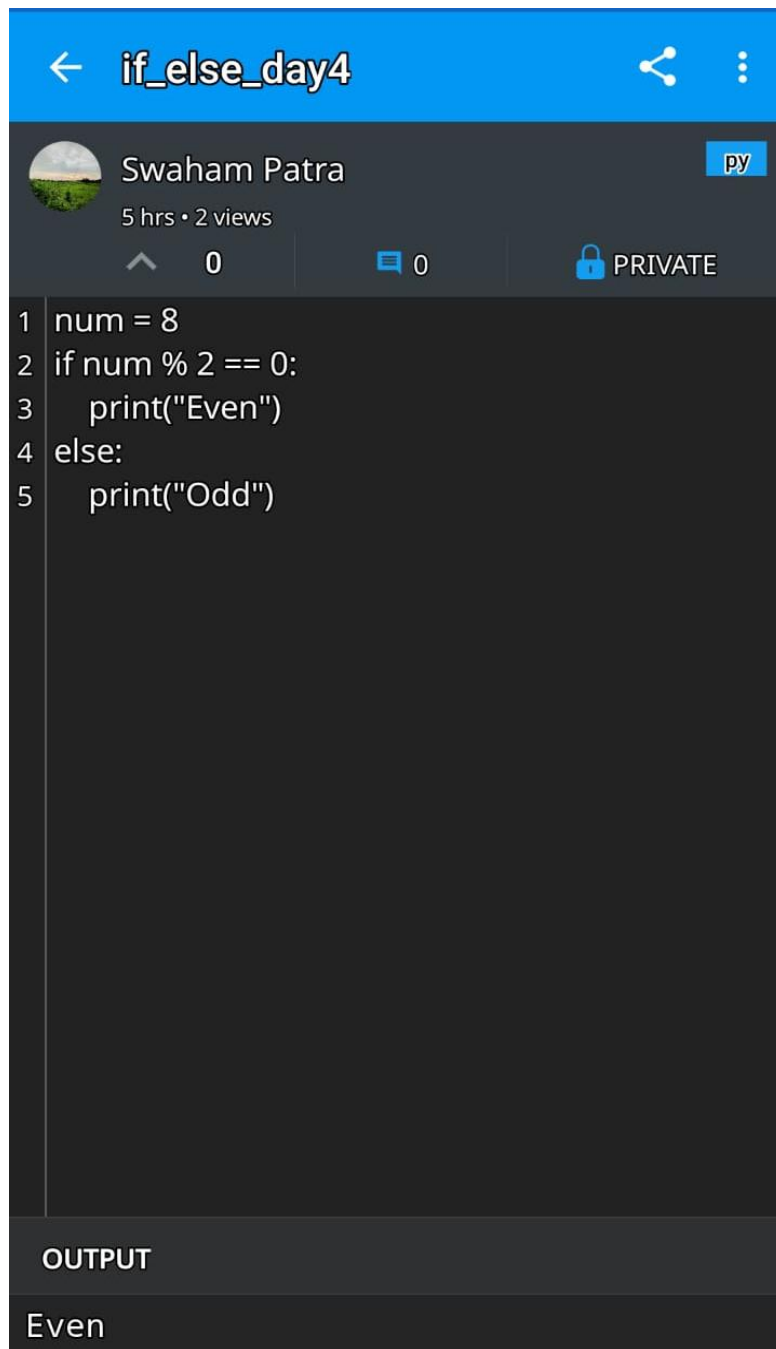

```
1 num = 5
2 if num > 0:
3     print("Positive number")
```

OUTPUT

Positive number

Task 2:

- If-Else Statement

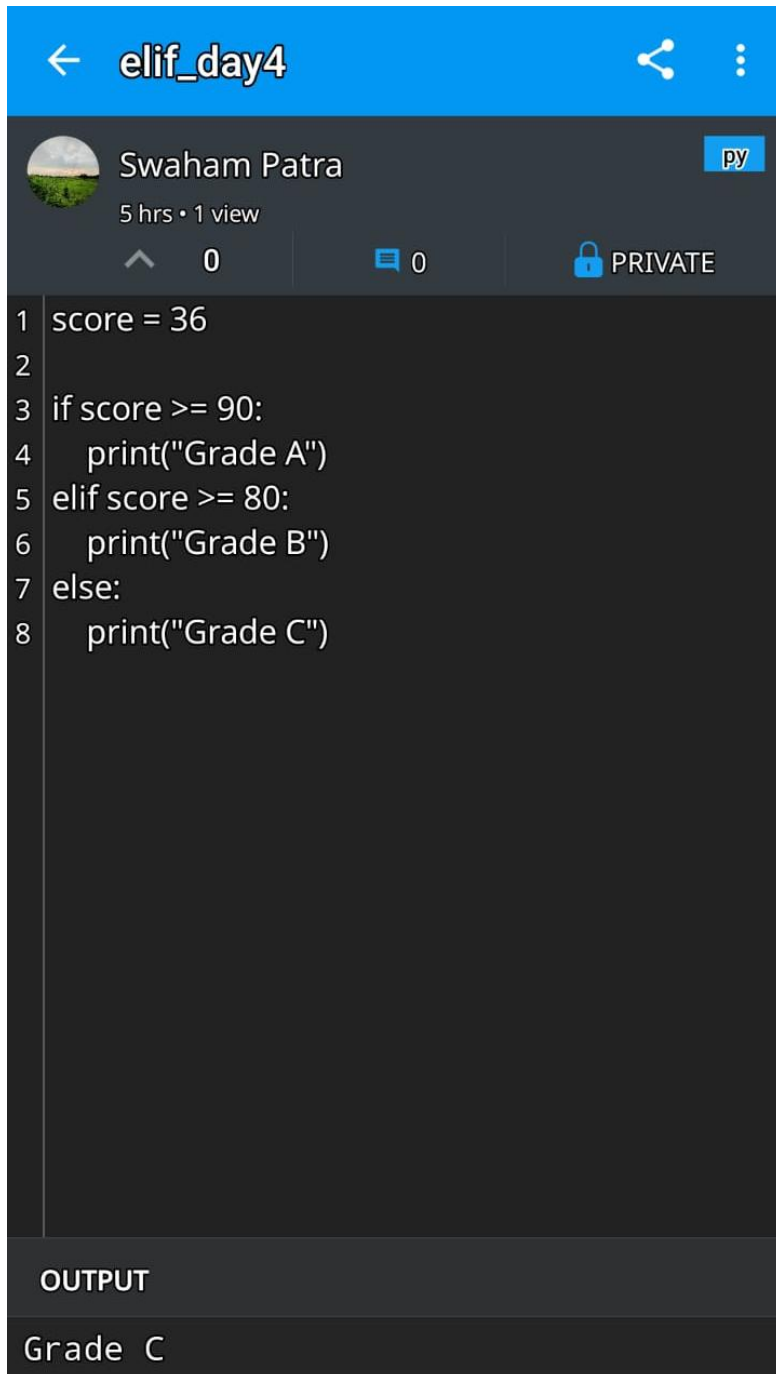

The screenshot shows a code editor interface with a blue header bar. The header bar contains a back arrow, the text "if_else_day4", a share icon, and a menu icon. Below the header bar, there is a profile section for "Swaham Patra" with a profile picture, a "py" language tag, and statistics "5 hrs • 2 views". Below the profile section, there are three icons: an up arrow with "0", a comment icon with "0", and a lock icon with the text "PRIVATE". The main area of the editor displays a Python code snippet with line numbers 1 through 5. The code is as follows:

```
1 num = 8
2 if num % 2 == 0:
3     print("Even")
4 else:
5     print("Odd")
```

At the bottom of the editor, there is a section labeled "OUTPUT" which displays the text "Even".

Task 3:

- If-Elif-Else Statement

```
← elif_day4
```

Swaham Patra
5 hrs • 1 view

0
PRIVATE

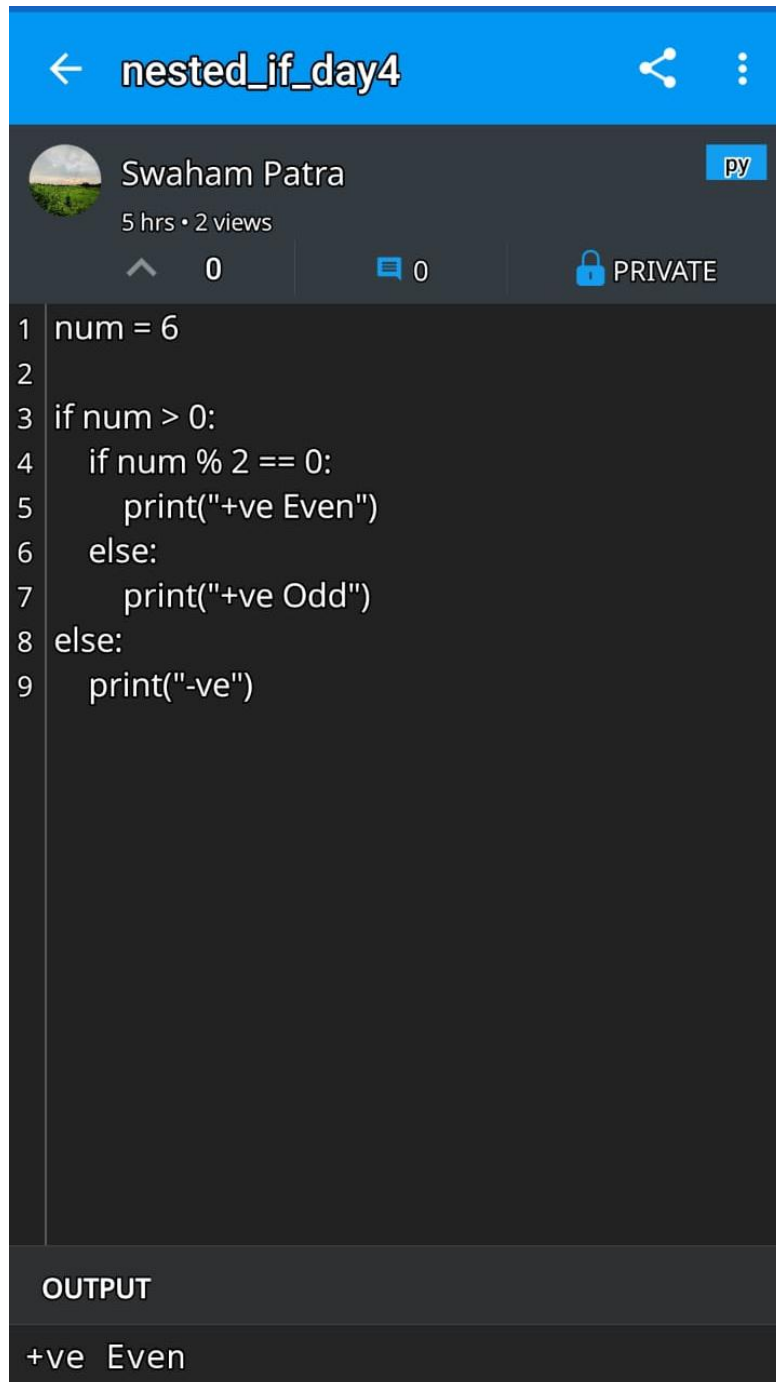

```
1 score = 36
2
3 if score >= 90:
4     print("Grade A")
5 elif score >= 80:
6     print("Grade B")
7 else:
8     print("Grade C")
```

OUTPUT

Grade C

Task 4:

- Nested If

The screenshot shows a code editor window titled "nested_if_day4". The code is written in Python and demonstrates a nested if statement. The code is as follows:

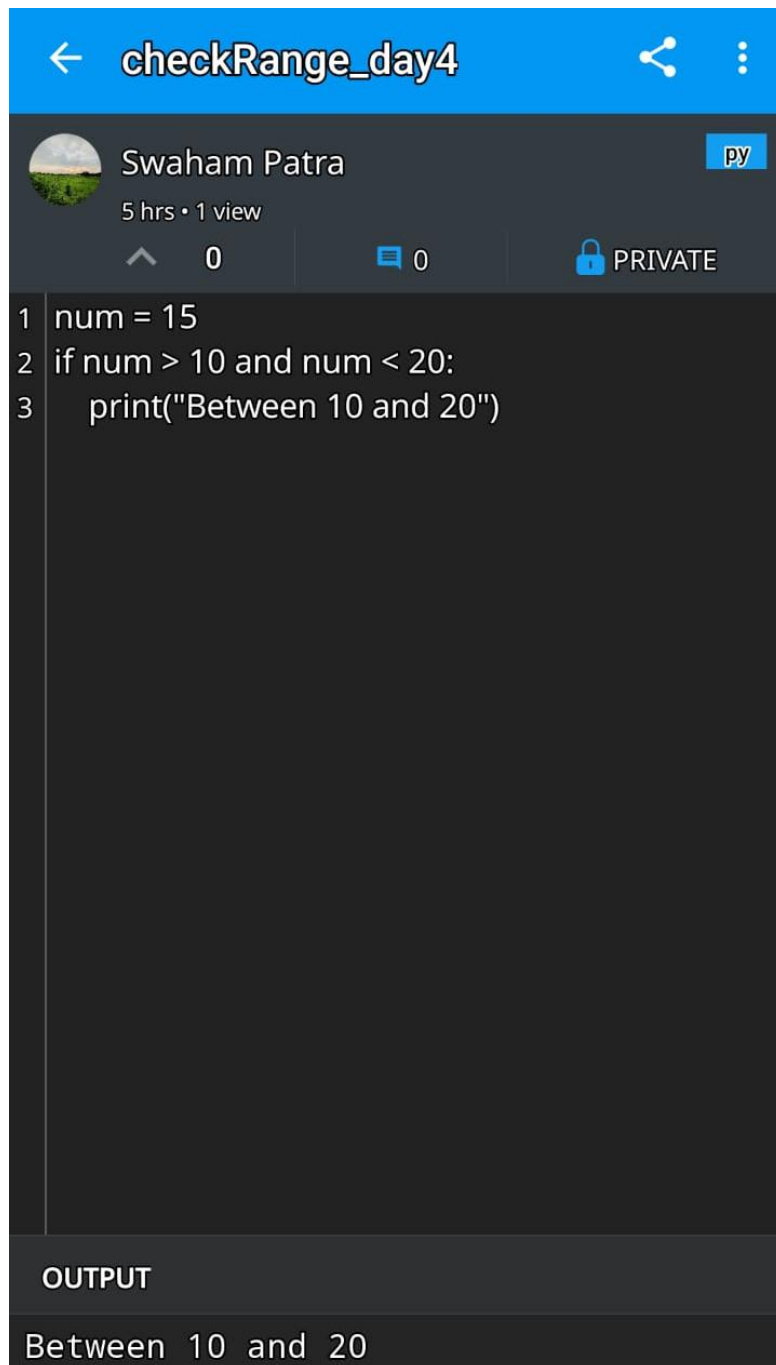

```
1 num = 6
2
3 if num > 0:
4     if num % 2 == 0:
5         print("+ve Even")
6     else:
7         print("+ve Odd")
8 else:
9     print("-ve")
```

Below the code editor, there is an "OUTPUT" section showing the result of the code execution:

```
+ve Even
```

Task 5:

- Logical Operators

The screenshot shows a code editor window titled "checkRange_day4". The code is written in Python and checks if a number is between 10 and 20. The output of the code is displayed at the bottom.

```
1 num = 15
2 if num > 10 and num < 20:
3     print("Between 10 and 20")
```

OUTPUT

Between 10 and 20
